London National Park City, put simply, is a movement to improve life in London. We are working with residents, visitors and partners to:

- Enjoy London's great outdoors more
- Make the city greener, healthier and wilder
- Promote London's identity as a National Park City

We want more bird song, ultimate frisbee, hill-rolling, tree climbing, cycling, hedgehogs, volunteering, sharing, outdoor play, kayaking, clean air, otters, greener streets, outdoor learning, ball games, outdoor art and hilltop dancing in the city. Why not?

Having successfully campaigned to make London a National Park City, the National Park City Foundation has been established to bring the idea to life. We're doing this by:

- Leading inspiring campaigns
- Growing our movement
- Supporting and coordinating action

Individuals, families, groups and organisations can make their own contributions to the London National Park City's aims, either formally or informally. The Mayor of London has committed to protecting and increasing green spaces and is providing funding to help with planting. You can contribute by simply making your part of the city a little wilder or enjoying a new part of the city's great outdoors. The more people who do these things the better.

"What a moment for London: a celebration of the biodiversity and greenness that the city holds, an acknowledgement of how vitally urban lives are bound up with - and enriched by - nature, and a vision for the future of how to deepen and improve our relations with the living world - for what is good for nature is also good for us all." - **Robert Macfarlane, nature writer**
